Manage Self

The background of the slide is a dark, almost black, space filled with a dense field of small, glowing red particles. These particles are scattered across the entire frame, with some appearing as bright, distinct dots and others as faint, blurry streaks. The overall effect is a dynamic, particle-like texture that suggests movement and energy. The particles are more concentrated in certain areas, such as the top right and bottom right, where they form a sense of depth and flow.

Our Real Work

It may be that when we no longer know what to do
we have come to our real work,
and that when we no longer know which way to go
we have come to our real journey.

The mind that is not baffled is not employed.

The impeded stream is the one that sings.

-Wendell Berry
